PROFESSIONAL EXPERIENCE

Associate Developer, MS-Build consultancy team

Datacom, Auckland

📅 January 2022 - June 2023

- Helping several clients develop and deliver various website features that they need to enhance their businesses all in a full stack capacity
- Worked in React/Typescript, CSS, C# and SQL tech stacks
- **Smartly payroll (April 2022 - March 2023)**
  - Worked with a purely remote agile and full stack team to plan, develop and deliver a bespoke HR "pay parity" project for Te Kohanaga Reo
  - Responsible for integrating FullStory (UX optimisation tool) into Smartlys React and .NET MVC code
  - Preparing and presenting demos to stakeholders
- **Fidelity Life (March 2023 - June 2023)**
  - Operating as the lead developer to make a new React micro-frontend web app
  - Wrote my own user stories, tasks, UI designs, and decided what direction that the development of the project went in

Junior Web Developer

LifeDirect, Wellington

📅 November 2020 - December 2021

- Hired through Summer of Tech
- React, Javascript, C#, .NET MVC, SQL and CSS tech stack
- Everyday collaboration with upper management, designer, tester and other developers in order to deliver new features/fix bugs
- Solely developed a referral code project across LifeDirects two main customer facing websites and internal CRM
  - Developed data schema and integrated the schema into LifeDirects SQL database
  - Developed CRUD APIs and business logic
  - Developed React/.NET MVC frontend
  - Unfortunately left incomplete due to me having to shift focus onto more urgent items of work
